# Getting the perfect fit is always important, here's how to measure!

## Step 1

Lay one of your own T-shirts (or whatever type of garment you're comparing to) on a flat surface and smooth it out.

## Step 2

Measure the **WIDTH** across the chest from about 2.5cm below the armhole (from side seam to side seam).

## Step 3

Match this figure to the nearest size on the relevant size chart for that garment.

If you're unsure, order one size larger!
