The first placing will receive 12 points with subsequent placings awarded points on a sliding scale. If there were two eighths, 5 and 4 points are added together and divided by 2. The equal placings receive 4.5 points each. The next placing receives 3 points. Eliminated/retired competitors will receive 0 points.

Example point allocation for individual phase

Number of riders: 12

Placing	Points		
1 st	12		
2 nd	11

18.5. In the event of equal overall points, the combination with the best Obstacles Style result will place higher. If there is still a tie, the combination with the best Dressage result will place higher. If there is still a tie, then the Competitor with the best result in the Speed and Accuracy phase shall be the winner. If there is still a tie, they shall be considered equal.

18.6. Prizes and other special awards for placings in each phase at the discretion of event organisers

Example: To perform this obstacle, the combination must enter between drums 1 and 3. They perform a complete right circle around the first drum. Upon completing a full circle

around the first drum, at the point of crossing an imaginary line between the first drum and the second drum and at the point halfway between the drums, the horse shall change direction to the left. Upon completing a $\frac{3}{4}$ circle around the second drum, at the point of crossing an imaginary line between the second drum and the 3rd drum and at the point halfway between the drums, the horse shall change directions and begin a full circle to the right around the final drum. Upon completing a full circle around the third drum, the combination shall pass between the first and third drum to exit the obstacle on the same line of travel by which they entered the obstacle.

The rider to approach perpendicular to the gate, then move the quarters parallel to the gate with horses head toward the latch and then open the gate. **The solid gate must be opened away from the horse.** The horse should then walk through the gateway. Level 5 and 4 riders **do not close the gate**, and at this point should halt **for 5 seconds, then move to the next obstacle** (if a rope gate is being used it can be dropped once in halt). For other levels, once the horse has fully exited the other side of the gate, the rider may back up one or two steps to close the latch. **Level 3 and above, hand must remain on the gate or rope. It must be constructed of planks/sleepers with edges rounded, no internal braces, boxes or sections and no sharp protrusions. The footing must be non-slip material. No mattresses, plastic tarps or other plastic to be used.

The varied footing must be ridden at a walk. Transition markers placed 2-3 metres from each end of the varied footing are compulsory for this obstacle.

Style phase (Judging Criteria)		
Level	Gait	Directives for Style phase
5	Walk	Straightness,
4	Walk	Rhythm, straightness, transitions
3	Walk	Rhythm, straightness, transitions
2	Walk	Rhythm, straightness, transitions
1	Walk	Rhythm, straightness, transitions
Advanced	Walk	Rhythm, straightness, transitions

The horse should approach and complete the obstacle in a longer framed walk, consistent with the level directives.

In level 5 the expectation is that transitions will be performed within 3 strides of the marker, in level 4 within 2 strides of the marker and in level 3 within 1 stride of the marker. By level 2 all transitions should be smooth and on the marker. **In level 2, transitions down can be through trot.**
